## April 2026 Monthly Report

CGUN:ASX

### Portfolio update

April was a busy month for results.

In **Technology** – **Amazon** delivered a solid Q126 result with 15% constant-currency revenue growth and 30% operating income growth. The key AWS division grew 28%. **Microsoft** also grew revenue 15% in constant-currency, with Azure growing 39% in constant-currency. This translated into 21% growth in adjusted EPS.

Our **Financials** all produced strong results. **Visa** had a strong Q226 result with revenue growth of 16% in constant-currency and 20% growth in adjusted EPS respectively. Value-Added-Services (now ~30% of revenues) was a standout with 27% revenue growth, showing how the business continues to evolve from its core payments franchise. **S&P Global** had a solid Q126, with result organic revenue growth of 9% translating into 14% at the bottom line. **CME** had a very strong result with 14% revenue growth and 20% growth in EPS.

In **Business Services**, **Marsh** grew organic revenue 4% in Q126, despite the soft insurance market backdrop, where pricing was down 5%.

In **Industrials**, **Allegion** delivered organic revenue growth of 3% in Q126, with the Americas growing mid-single digits, whilst ex-US was down 5%, impacted by an ERP implementation (this is expected to be recovered for the full year). The core US institutional market remains solid and build-to-spec activity has been strong. Guidance was maintained for the full year. **Waste Connections** delivered a solid Q126 with revenue growth of 6%, resulting in 8% growth in EBITDA. Full year guidance was unchanged.

Finally in **Consumer**, **Chipotle** delivered 7% revenue growth in Q126 (comp 0.5%) and full year guidance was unchanged.

Whilst portfolio performance has been disappointing, business performance has been very solid as the above results show. The valuation of the portfolio remains very attractive, with the portfolio trading at a 25% discount to our underlying estimated values. As such, we remain confident of achieving our targeted return of 8-12% p.a. over the medium term.
